PERSONAL SAFETY ON THE TTC

Designated Waiting Areas are located on all subway and Scarborough RT platforms.

The Request Stop Program allows the woman travelling alone on buses between 9pm and 5am to ask the driver to let them get off the bus at locations between regular TTC stops.

When leaving streetcars look to the right before stepping into the street. **Make sure all traffic has stopped.** Bus and streetcar drivers also have alarm systems in each vehicle to summon assistance, and all buses and streetcars have two-way radios. Remember to stand behind the white line when the vehicle is in motion. Move to the rear and stay clear of the doors. To tell the driver you want to get off at the next stop, pull the cord overhead, or push the button, as soon as the vehicle leaves the previous stop.

PERSONAL SAFETY ON THE TTC (continued)

Passenger Assistance Alarms are above the windows and at the ends of all Subway & SRT cars. Press this yellow strip alarm for fire, harassment, illness, accidents, passenger safety & vandalism. The train crew will arrange for assistance at the next station.
